Letter from the Editor

Dear Alumni and Friends of Purdue,

The past year has been filled with exciting leaps forward for the Purdue I-O family! We have much to share in this edition of the annual PAGSIP Newsletter including introducing our new students (pg. 2), recent alumni interviews (pg. 4,5), and upcoming SIOP presentations (pg. 11). You can also find more information on the [Purdue I-O Psychology program website](https://www.purdue.edu/iop/psychology/program/website/) and our social media platforms.

Thank you for your continued support as a member of our Boilermaker family!

Jeffrey Masser, Newsletter Editor

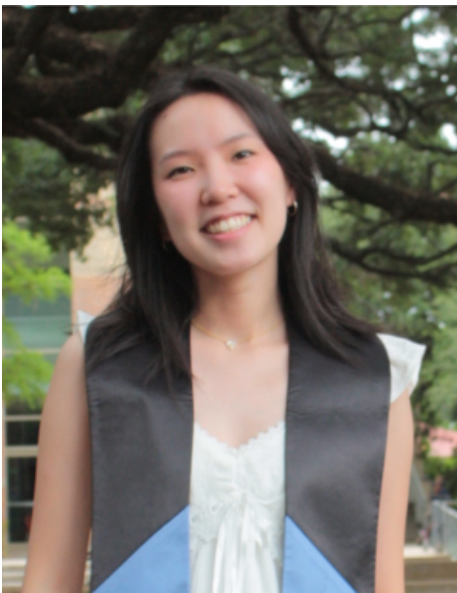

Meet Our New Students

Changyoon Byun

Hello, my name is Changyoon, and I am a first-year student in the INDiGO lab! Prior to joining Purdue's I/O program, I earned my MPS in I/O psychology at the University of Maryland, College Park, and my B.A. in psychology at the University of Minnesota, Twin Cities. My research interests include teams, leadership, and individual differences.

Hannah Kim

Hannah Kim is a first year I-O Psychology PhD student at Purdue. She received her BA in Psychology from Rice University in 2025. Her research interests include workplace discrimination, DEI, dehumanization and humanization of employees, and disclosures.

Emma Showalter

Emma Showalter is a first year PhD student studying I-O Psychology at Purdue University. She received her B.S. in Psychology from Purdue in 2023 and went on to work in HR at Lincoln Financial for two years. She is broadly interested in studying how people actively shape their own growth and fulfillment, focusing on discernment, agency, and the practices that support a healthy relationship with work.

Alumni Corner

Recently, we reached out to several PAGESIP alumni to share their memories and experiences from their time as graduate students at Purdue. Their words resonated deeply with us, and we hope they do the same for you. Enjoy!

“Purdue’s I-O program has a special place in my heart. When I was there, I used to joke about West Lafayette being nothing but cornfields and about how old the psychology building was. But now, not even a year after graduating, I already miss the program deeply. As an international student, it felt like my first home in the U.S. and made me feel like I truly belonged. The training I received helped me become the independent scholar and mentor I aspired to be, and it also helped me find a job I genuinely enjoy. The students and faculty I met have become some of the most important friends and mentors in my life, and I’ve learned so much from each of them. We’ve also shared so many great memories in conferences, trips, weddings, happy hours, gatherings at Woo-Tay’s, and more. I’m forever grateful for that chapter of my life.

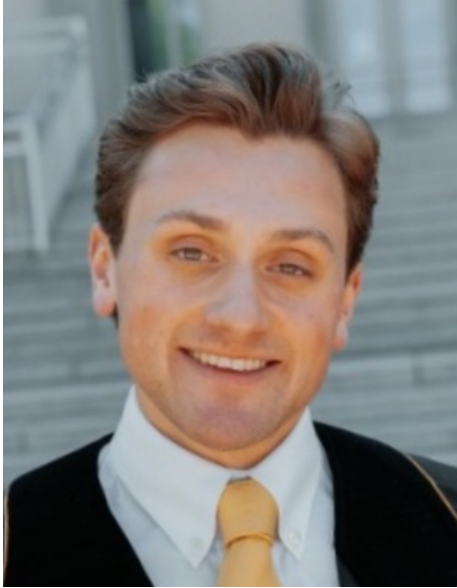

~ Dr. Zhixu (Rick) Yang, Baruch College

“My time as a graduate student in I-O Psychology at Purdue shaped me in ways that go far beyond methods and manuscripts. It was where I learned to think rigorously, ask braver questions, develop resilience, and care deeply about the impact of my work. People make the place. The mentorship, friendship, and intellectual community of the faculty and peers helped me find my scholarly voice and identity. Purdue did not just train me as a researcher; it nurtured my confidence, curiosity, and enduring commitment to work that truly matters.”

~ Dr. Daphne Xin Hou, University of South Florida

Alumni Corner

“I have a unique appreciation for the Purdue I-O program as someone who spent two years in another program before transferring. The program's pedigree and contributions to our field frequented my mind as a student and still do as an alumnus. I'm motivated to represent this legacy well in my research and applied work. The graduate training that I received at Purdue, especially in research methods, prepared me well for a career in applied research. Lastly, the Purdue alumni network is a wonderful community that has been instrumental to my early career opportunities and growth.”

~ Dr. Bradley Pitcher, ATPMetrics

GRANTS

National Science Foundation Grant (Alex Harris-Watson, 2025-2027)

AWARDS & RECOGNITIONS

Fanyi Zhang received the Dr. William H. Hendrix Industrial-Organizational Psychology Graduate Student Research Excellence Award at Purdue (2025). She also received an honorable mention for the C. Eugene Walker Outstanding Graduate Student Award (2025).

Gloria Liou received the 2026 Schaeuble Award for Quantitative Approaches to Psychological Science

Victoria Scotney received an honorable mention for the David A. Santogrossi Graduate Instructor Award at Purdue (2025).

PROGRAM MILESTONES

Congratulations to Jeffrey Masser on successfully defending his master's thesis!

COLLOQUIUM SPEAKERS

We had the honor of hosting amazing guest speakers in our I-O Colloquium this year:

Dr. Franki Kung

Dr. Alex Harris-Watson

Dr. Brooke Macnamara

Dr. Bo Zhang

Dr. Susan Simkins

Grand Salon B - Section 7 & 10

Purdue Presentations at SIOP 2026!

Presentation Title	Format	Featured Purdue I-O Students and Faculty	Time
AI-ttitudes: Causes and effects of user attitudes toward AI tools in organizations	Symposium	Gloria Liou & Louis Tay	Thurs., Apr. 30th @ 10am Room B2-2
Development of a subjective AI attributes scale to inform human-agent teaming	Symposium	Jeffrey Masser & Alex Harris-Watson	Thurs., Apr. 30 th @ 2pm Room 215/216
From tools to teammates; Applying team science to advance human-AI collaboration	Symposium	Changyoon Byun & Alex Harris-Watson	Thurs., Apr. 30 th @ 2pm
Still here! Navigating remoteness during graduate school	Alternative Session	Fanyi Zhang	Thurs., Apr. 30 th @ 5pm Room R1
Authenticity at work: The complex role of identity	Symposium	Gloria Liou & Louis Tay	Thurs., Apr. 30 th @ 5pm Room 214
Gender differences in authenticity: Implications for organizations	Symposium	Gloria Liou & Louis Tay	Thurs., Apr. 30 th @ 5pm Room 214
Emergent vs. Effective Leadership in Eastern Europe	Symposium	Meaghan Tracy	Fri., May 1 st @ 8am Room 215/216
Beyond average: Advances in team composition and approaches to multilevel data	Symposium	Jeffrey Masser & Alex Harris-Watson	Fri., May 1 st @ 10:30am Room 218/219
From traits to trait preferences: The role of implicit teammate theories	Symposium	Jeffrey Masser & Alex Harris-Watson	Fri., May 1 st @ 10:30am Room 218/219
Misaligned Remote Work Increases Stress: Evidence From Employees With and Without Disabilities	Symposium	Meaghan Tracy	Fri., May 1 st @ 10:30am Room 214
Cultivating cultural mindset in engineering students in multicultural teamwork	Poster	Sang Woo & Franki Kung	Sat., May 2 nd @ 8am Exhibit Hall
Development and Validation of the Police Sentiment Inventory (PSI)	Poster	Meaghan Tracy	Sat., May 2 nd @ 3pm Exhibit Hall
Potential negative influences of artificial intelligence aids on human skills	Symposium	Brooke Macnamaara	Sat., May 2 nd @ 9:30am R9
"I'll Get to it Later": The Role of Personality and Burnout on Work Procrastination	Poster	Meaghan Tracy	Sat., May 2 nd @ 10:30am Exhibit Hall
More Than Machines: Elevating People Science in the AI Era	Panel	Alex Harris-Watson	Sat., May 2 nd @ 2pm
Police Officer Privacy Calculus Predicts Burnout	Poster	Meaghan Tracy	Sat., May 2 nd @ 3pm Exhibit Hall
